MEETING OF THE GPZ GROUP CYTOGENETICS 2019

We announce the 2019 meeting of the GPZ working group Cyto genetics in Dresden (Germany). The focus of the meeting will be "CHROMOSOME BIOLOGY, GENOME EVOLUTION AND MODERN CYTOGENETICS IN THE CONTEXT OF PLANT BREEDING".

The conference venue is an idyllic hotel near Dresden (<https://www.kim-hotel.de/en>) providing meeting facilities, and an excellent surrounding to stimulate scientific discussion and interaction with international colleagues involved in genome editing, chromosome engineering, cyto genetics and plant breeding.

For further information, registration, and abstract submission please visit:

<https://tu-dresden.de/mn/biologie/botanik/molbio/gpz2019>

We are looking forward to welcome you in Dresden. Please register soon, as we have to close the registration after reaching the maximum number (35) of participants. On-site registration is not possible.

Abstract submission:	closes July 15, 2019
Registration deadline:	closes August 15, 2019
Accommodation booking:	closes September 6, 2019
Registration fee:	€ 100
