

5th Conference on Cereal Biotechnology and Breeding jointly organized by EUCARPIA Cereal Section

November 4-7, 2019 / Budapest, Hungary

Dear Colleague,

Cereal biotechnology and breeding is your favorite subject to speak about? Then do not miss this meeting!

Due to the many requests we extend the abstract submission deadline to **August 15, 2019** for the **5th Conference on Cereal Biotechnology and Breeding / CBB5**, to be held in Budapest, Hungary between November 4-7, 2019, and jointly organised with the Cereals Section of EUCARPIA - the European Association for Research on Plant Breeding Research.

Come and share your new results!

Extended abstract submission deadline is August 15, 2019

Abstract notification until September 1, 2019

Submit your abstract at cbb.akcongress.com

Call for Abstracts

Authors are invited to submit their oral and poster contributions from the following fields:

- Plant Genetic Resources for Future Breeding
- Adaptation to Changing Environments
- Plant-Microbes Interactions: Stress vs. Benefit
- New Breeding Strategies and Bioinformatic Tools
- Modern Technologies: From Phenomics to Genome Editing

Keynote speakers

An impressive line-up of plenary speakers will present on CBB5 covering the most recent issues of cereal biotechnology and breeding, we have the following confirmed speakers so far:

Asmund Asdal

NordGen
As, Norway

Luigi Cattivelli

Council for Agricultural Research and Economics (CREA) Genomics Research Centre

Partners and exhibitors

Co-Organizer Partner

EUCARPIA aims to promote scientific and technical co-operation in the field of plant breeding in order to foster its further development. To achieve this purpose, the Association arranges and sponsors meetings of members, to discuss general or specific problems.

Silver Exhibitor

Agronomix is a license software to plant breeders and agronomists. The software assists breeders and agronomists to store, manage and analyze their data. To set personal meetings in advance with Agronomix referee please contact us!

Partner

Burleigh Dodds Science Publishing is an award winning, "climate-smart" publisher in agricultural science and its work will help researchers in agricultural science address how to feed a growing population in the face of climate change and increasing competition for land, water and other resources. With over 50 published titles and an extensive forward programme, our books cover the major crops and livestock types. This includes each step on the value chain for their production, from breeding through to harvest and the final product.

For further details about the conference please visit **our website**, it is continuously updated with relevant information!

We are looking forward to meeting you in Budapest!

On behalf of the Organizing Committee,

Andreas BOERNER

Conference Chair
Leibniz Institute of Plant Genetics and Crop Plant Research (IPK), Germany
Head Cereals Section of EUCARPIA
President Designate of EUCARPIA

Gabor GALIBA
